

TRIPyr Technologies chimiques pour la valorisation des résidus industriels dans les Pyrénées

1st Annual TRIPyr meeting

29-30 November 2021, ICIQ facilities

PROGRAMME

29 November 2021

9:00-9:15	Welcome and presentation of TRIPyr
9:15-10:15	INVITED LECTURE <i>Rethinking supercritical CO₂ use</i> Ana Aguiar Ricardo Universidade Nova de Lisboa
10:15-10:45	Break
10:45-11:15	<i>Alkyl Chloride Activation for the Valorization of Lindane</i> Matthew Wakeling ICIQ, Tarragona
11:15-11:45	<i>Polyesters derived from fatty acids – a new catalytic valorization route</i> Arianna Brandolese ICIQ, Tarragona
11:45-12:45	<i>Scientific promotion and communication of the TRIPyr project results</i> Aurélien Harirèche and Emilie Tisné Ecocene, Pau
13:00-14:30	Lunch
14:30-15:00	<i>Waste as raw materials: chemical transformations in circular economy</i> Elísabet Pires CHESO, Zaragoza
15:00-16:00	INVITED LECTURE <i>Alternative technologies for biomass conversion</i> François Jérôme Université de Poitiers - CNRS
16:00-16:30	Break
16:30-18:00	Presentation of High Throughput Experimentation (HTE) laboratory and facility visit Xisco Caldentey ICIQ, Tarragona
18:00-18:30	<i>Novel catalytic nanomaterials for the valorization of fatty acids</i> Daniel Pla LHFA, Toulouse

The project has been 65% cofinanced by the European Regional Development Fund (ERDF) through the Interreg V-A Spain France Andorra programme (**POCTEFA 2014-2020**). POCTEFA aims to reinforce the economic and social integration of the French-Spanish-Andorran border. Its support is focused on developing economic, social and environmental cross-border activities through joint strategies favouring sustainable territorial development.

Project cofinanced by ERDF

30 November 2021

9:00-10:00	<p style="text-align: center;">INVITED LECTURE</p> <p><i>Monetization Strategies for Intellectual Properties. Know the value of your IP, choose the best industrial partner to negotiate more and better licensing deals</i></p> <p style="text-align: center;">Alessandro Zedda Zedda Innovation Consulting & Labs, Muttenz</p>
10:00-10:30	<p><i>Hydrogenation of fatty wastes in flow process: methodology and challenges</i></p> <p style="text-align: center;">Laurent Pichon and Annelise Conté MEPI, Toulouse</p>
10:30-11:00	Break
11:00-11:30	<p><i>Batch scale up applied to fatty industrial residues in TRIPyr project</i></p> <p style="text-align: center;">Francisco Martín AIN, Cordovilla</p>
11:30-12:00	<p><i>Fatty waste from the agro-food industries: resource inventory and optimization of pretreatments</i></p> <p style="text-align: center;">Laetitia Cavaille SAPOVAL, Albi</p>
12:00-13:00	Management Committee meeting
13:00-14:30	Lunch

The project has been 65% cofinanced by the European Regional Development Fund (ERDF) through the Interreg V-A Spain France Andorra programme (**POCTEFA 2014-2020**). POCTEFA aims to reinforce the economic and social integration of the French-Spanish-Andorran border. Its support is focused on developing economic, social and environmental cross-border activities through joint strategies favouring sustainable territorial development.
